

Stop disability cuts!

Protest the sham Timms Review

Why are we protesting?

The Timms Review is looking at the PIP disability benefit. The UK Government promised that the review would be 'co-produced' with Disabled people. Instead, it is an undemocratic and top-down review being used to justify cuts, particularly for young Disabled people.

We can fight back and win!

The only reason most of these cuts have not already happened, and existing claimants have been protected, is because Disabled people protested and defeated the government last year.

Join us to demand:

- ◆ No disability cuts
- ◆ No sham Timms Review
- ◆ An independent review, led democratically by Disabled people and our organisations, including our trade unions.
